

2020 Sports Physicals

The experts at UH Sports Medicine and UH Rainbow Babies & Children's are as committed -- on and off the field -- to our scholastic athletes as we are to our professional athletes. As our team of experts guide school administrators and coaches through a responsible restart to sports, it is important for student-athletes to stay up to date with well-checks and yearly sports physicals.

University Hospitals Rainbow pediatricians have appointments available now to complete sports physical exams and required forms at their offices. This exam enables the athlete to participate in scholastic sports as required by the Ohio High School Athletic Association (OHSAA).

How to get your child's 2020 sports physical

- Make an appointment with a UH Rainbow pediatrician
 - A list of all pediatric locations are listed on the back of this handout – all of these locations have appointments available now to complete sports physicals for new and current patients.
 - You can also search for a location at UHRainbow.org/Pediatrics/Locations

Please note:

- If you are a new patient, please bring your child's vaccination records to the visit
- All minor patients must be accompanied by a parent/legal guardian

Your pediatric practice is your child's medical home - where your child is best known and holistic care can be provided to optimize their physical, emotional and developmental needs. Completing sports physicals as part of an annual well visit allows your child's pediatrician to review vaccines and year-to-year growth.
